

VRG Components Becomes Authorized Distributor for wenglor sensoric

CHARLOTTE, NC USA (March 5, 2024) - VRG Components is proud to announce a new distribution agreement with wenglor sensoric LLC for their advanced smart sensor and image processing solutions.

This new authorized distribution agreement with wenglor sensoric enables VRG Components to better meet the needs of our growing customer base in the United States. Our collaboration is built on a foundation of shared values and enables both companies to leverage our respective strengths, serve the industry better, and drive technological advancement. As an authorized distributor, VRG Components will manage and execute the marketing, sales, and distribution of all wenglor sensoric products across the United States.

CEO Verena Martin said, "We are enthusiastic about the possibilities this partnership opens for both our companies and, most importantly, our mutual customers. It signifies our shared dedication to quality, innovation, and service excellence. We look forward to working closely with wenglor sensoric to expand the market presence of both companies and provide the customer support our global customers rely on."

About wenglor sensoric group

wenglor sensoric is an innovative company for smart sensor and image processing technologies. Many patented product and system solutions are used in countless automated industries worldwide. Constant growth, outstanding products, and excellent corporate governance qualify wenglor sensoric group as a top employer in the SME sector.

The company is a family business founded in 1983 by Dieter Baur in Tettang on Lake Constance in the German state of Baden-Württemberg. Under the leadership of his sons, Fabian and Rafael Baur, wenglor sensoric group has grown into a global player in the fields of sensors and machine vision and has become an indispensable part of the world of automation.
