

## VRG Components is Named a Supply Chain Connect Top 50 Distributor

CHARLOTTE, NC USA (May 23, 2024) - VRG Components, a global AS9120B / ISO 9001:2015 certified independent distributor of electronic components, is proud to announce that it has been named a Supply Chain Connect Top 50 North American Electronics Distributor.

This prestigious list is published annually by Supply Chain Connect; an organization well known as an authoritative independent information source for the electronics industry.

This is the third time VRG Components has been named in its annual round up of top distributors and is a testament to the company's commitment to quality, reliability, and consistency in delivering the highest quality products and services. "Joining this prestigious list of distributors for a third time is an important acknowledgement of our team's commitment to solve global supply chain challenges with unmatched speed and precision. I am proud of every member of our team for making this possible and expect continued growth and success throughout 2024 and beyond," said CEO Verena Martin.

### About VRG Components

As a woman-owned AS9120B/ISO 9001:2015 certified independent global distributor, VRG Components supplies the highest quality hard-to-find, end-of-life, highly allocated, and long lead time electronic components enabling customers to maintain manufacturing operations, bridge supply gaps, reduce costs, manage inventory, and speed time to market. Manufacturers worldwide turn to VRG Components to keep their supply chains intact, reduce carrying costs, minimize the effects of price increases or shortages, and achieve accuracy in cost planning.

The company, a WBENC-certified Women's Business Enterprise, is a three-time [Inc. 5000 winner](#) and a [2024 Supply Chain Connect Top 50 North American Electronics Distributor](#).

VRG Components is a privately held company based in Charlotte, NC. For more information visit their [website](#) and their [LinkedIn](#), [Facebook](#), [Instagram](#), and [YouTube](#) pages.

### **About Supply Chain Connect**

Supply Chain Connect provides supply chain and purchasing professionals with essential news, information and analysis about the technology and business trends that impact their global industry.

The company's seasoned editorial staff understands the speed at which global business moves and the complexity of the challenges today's supply chain faces. Supply Chain Connect covers the industry from component suppliers and distributors to original design manufacturers and electronic manufacturing services providers.

It covers the topics for managing short-term, tactical risk, including the latest product news, market and economic trends, and counterfeit and security issues. It also covers strategic issues of critical importance from CPOs to the implications of new technologies such as IoT, artificial intelligence, and 5G as they impact management of the supply chain.
